

Although bred for endurance, Duiker is very versatile and is a good jumper as well as dressage horse. He has very flashy movement.

Forward, but obedient under saddle; competitive horse. Not for a complete beginner rider though, as he can get very forward once excited. With some more work will make a great show pony.

Duiker has a very soft kind temperament, lovely ground manners, no vices, stands for farrier, vet and dentist. He has a soft snaffle mouth.

All vaccinations and passport up to date. Teeth recently done.

Confident on outrides and in the arena.

Duiker is an ideal ladies horse, or a good second pony for a competent or competitive child. This horse is very willing to please, and forms a great bond with his rider: a real one-person horse.

Very sad sale as young owner has lost interest in riding.

Only to a knowledgeable home. Conformation shots available to serious buyers.
