Agents for:

Product for September

Fenushine, 1kg: This herbal supplement increases weight, enriches coats with a deep and lustrous gloss while encouraging dappling and strengthens and stimulates healthy hoof growth.

Product for October

Colour: black, comes with Pad and Girth for only N\$ 12000.00!

The Barefoot range of saddles offer a flexible, treeless saddle solution to recreational riders. The saddles are anatomically cut, designed to embrace the horse's topline and the integrated VPS (vertebrae protection system) eliminates any pressure on the horse's back. The Cherokee model is a general purpose saddle designed with structured knee rolls.

Product for November

Introducing an insect repellent collar that will help protect your horse from flies, ticks, mosquitoes and midges. This new product is waterproof and only contains natural plant extracts with no harmful chemicals or pesticides. The collar is easily attachable and fully adjustable for your horse's comfort. Repells insects for up to 4 weeks.

Product for December:

This Citronella fly gel is a natural product and can be used liberally as needed. It was developed in conjunction with the University of Potchefstroom and since the product was launched it has become the top selling fly gel in South Africa. The Citronella is absorbed into the top layers of the skin and is released over a period of time, increasing the effectiveness of the product. Especially effective in repelling flies and midges.
